The templates that come with our Soap and Shampoo Caddies are pre-cut cardboard shapes that are ready to be traced onto the wall to give you a guide for cutting your hole.

This substitute template in PDF format is offered online as an emergency replacement for a lost cardboard one, or to show the size and shape of the hole before the caddy arrives.

This template is too large to be printed on a single page, so you will need to print all the pages, tape or glue them together according to the alignment lines and marks, cut out the shape and trace it onto the wall, or just use it to help plan your installation.

When printing a PDF file, make sure the "Shrink" option and the "Expand" option are turned **off** in the printer dialog, and "Center" is turned on or you may get unexpected results.

Make sure you print the whole document so you will have all the parts.

Rulers are shown along the perimeter to help you know if your printer made it the correct size and allow you to modify the size of the pictures if necessary before assembling them and cutting out the shape for tracing.

Call 1-800-669-9867 if you need assistance.
