# SHOWER DOORS - Sizing & Installation

See the **STANDARD SHOWER** section for Base, Walls and Door Kit pricing

USE THE STANDARD or CUSTOM "SHOWER DOOR" ORDER FORMS TO ORDER ANYTHING IN THIS SECTION

- KEY:**
- ◆ **Level** - Being on a plane parallel to the horizon with no part higher than another
  - ◆ **Plumb** - Being perpendicular, or straight up, from the horizontal plane
  - ◆ **Centerline** - The line that divides the Shower Curb along which the glass panes will be positioned
  - ◆ **Lite** - Industry term for a Glass Panel
  - ◆ **Return Panel** - A Glass Panel that goes away from the front of the Shower
  - ◆ **Frameless Door** - Door Lite has no metal framing
    - Side Lites have framing on bottom and wall sides
  - ◆ **Semi-Frameless Door** - Door Lite has metal framing on hinge side only
    - Side Lites are framed on all sides

## SHOWER DOOR SIZING - General

- ▶ When ordering a Door for any of our **Standard Showers**, simply state the size of the Shower Base as given in the catalog (for example, 36" x 36" Low Profile, or 36" x 32" Regular Profile).
- ▶ When ordering a Door for one of our **Custom Showers**, please issue a **SEPARATE Purchase Order #**, and include the Shower Base Order number on the Door Order Form as well.
- ▶ If ordering a Door for a **Shower not made by us**, specify if you are providing the Stud-to-Stud dimension (if not using our panels, specify panel/tile thickness), or the dimension between the finished walls (see drawing below).

Subtract Sheetrock thickness (x2) + Panel thickness (x2) from Stud-to-Stud Dimension to determine Shower Door Width (Measure at the base and at 6' to make sure the walls are straight)

## Measuring for Shower Doors

- ▶ Measure at the **BASE** of the opening.
- ▶ Measure **HALF WAY** between the base and the top.
- ▶ Measure at the **TOP** of the opening.
- ▶ Make sure Shower Base is level.
- ▶ Check the Side Walls for plumb.

### For ANGLED CURB Showers

- ▶ Give the Centerline dimensions of the Angled Curb.
- ▶ Provide all Curb angles.

The Centerline is an imaginary line that divides the Shower Curb, along which the glass panes will be positioned.

See the **Ordering & Design Forms** section for Measuring Work Sheets

# SHOWER DOORS - Sizing & Installation

See the STANDARD SHOWER section for Base, Walls and Door Kit pricing

USE THE STANDARD or CUSTOM "SHOWER DOOR" ORDER FORMS TO ORDER ANYTHING IN THIS SECTION

## Measuring for HALF WALLS and BENCHES

### Straight Line Shower Door

- ▶ Make sure the Shower Base is level
- ▶ Check Half Wall for Level (left/right)
- ▶ Check the Side Walls for plumb
- ▶ Measure the opening just above the Shower Base
- ▶ Measure the opening at the top of the Shower
- ▶ Measure just above the top of the Bench or Wall
- ▶ Measure Bench Seat slope (left/right)

See the Ordering & Design Forms section for Measuring Work Sheets

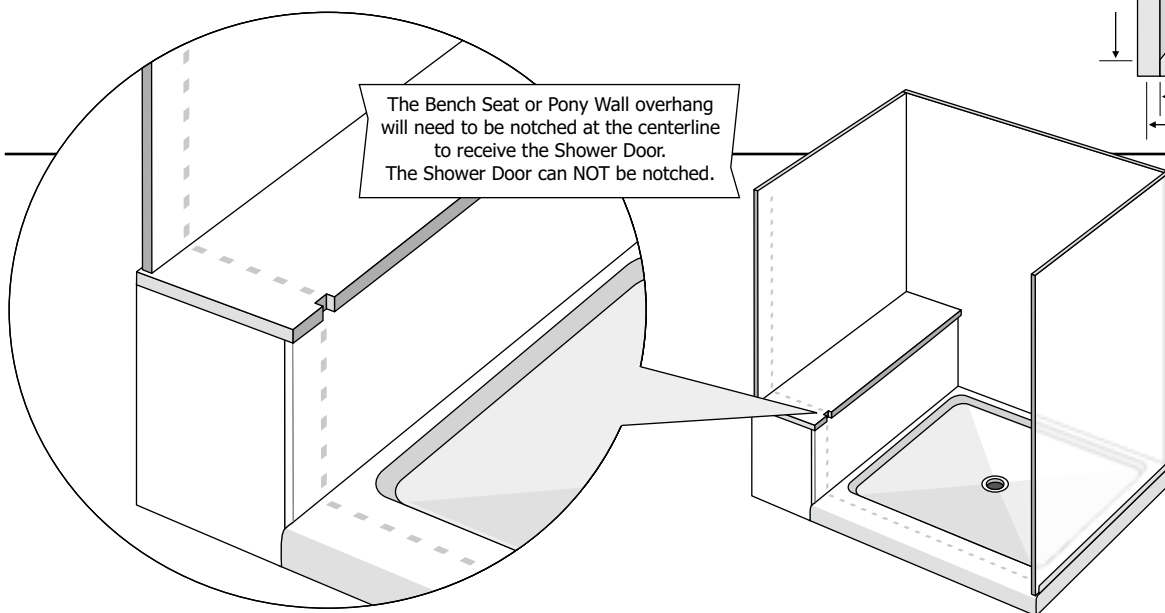

## Measuring for HALF WALLS and BENCHES

### Shower Door with Return Panel

- ▶ Make sure the Shower Base is level
- ▶ Check Half Wall for Level (left/right & front/back)
- ▶ Check the Back and Side Walls for plumb
- ▶ Measure the opening just above the Shower Base
- ▶ Measure just under the top of the Bench or Wall
- ▶ Measure for the Centerline of where the glass will sit along the Half Wall or Bench
- ▶ Measure Bench Seat slope (left/right & front/back)

The Bench Seat or Pony Wall overhang will need to be notched at the centerline to receive the Shower Door. The Shower Door can NOT be notched.
