Showers – Lavatories – Tub Surround & Shower Walls – Other Bath Accessories
– Yes! Guaranteed Forever –

About The Onyx Collection

The Onyx Collection manufactures shower bases, shower wall panels, lavatories, tub surrounds, shower seats, accessories and trim to your specifications in almost any color, shape and size. Founded in 1985, the Onyx Collection now employs over 500 in Northeast Kansas. Quality products, our “Yes! Guaranteed Forever” guarantee, quick delivery, ease of installation and our unique chemistry and design have made us legends in the industry.

Yes! Guaranteed Forever

Lavatories - Rectangular Shape

Rectangular lavatories are available in almost any size, all Onyx colors, 4 edge styles, and 11 bowl styles. A single bowl or multiple bowls can be located where needed. A backsplash can be integral (4" tall or less) or separate (any height). Faucet hole(s) frequently are for a single hole, 4" spread, or 8" spread, but can be custom sized or located as you need, including an extra hole for a soap dispenser.

Onyx Wall Panels are available in 5 finishes: Gloss, Subway Tile, Stone Tile, 8"x24" Wavy Tile, and Shiplap. Each finish style is priced the same. Panels are approximately 3/8" thick and come standard with 2 finished edges.

Shower kits are commonly 78", 84", 90", 96", 102" or 108" high.

Gloss

Our most popular finish, the smooth Gloss Finish gives a classic appearance with an easy-to-clean smooth surface.

Max Product Width: 118 1/2"

Max Product Height: 118 1/2"

Rule: Panels cannot be greater than 80" in both directions.

Subway Tile

Subway Tile Wall Panel Finish is a smooth, flat tile design with faux grout lines. The size of the "tile" is 3" x 9 5/8" and the 1/4" wide grout groove is 1/32" deep.

Horizontal Tile:

Max Product Width: 87 1/4"

Max Product Height: 105 3/8"

Vertical Tile:

Max Product Width: 105 3/8"

Max Product Height: 87 1/4"

Rule: Panels cannot be greater than 80" in both directions.

Stone Tile

Our production mold was made from natural 11 3/8" x 11 3/8" stone tiles which gives each wall panel the look of stone tile without the worry of leaking grout seams.

Max Product Width: 104 5/8"

Max Product Height: 104 5/8"

Rule: Panels cannot be greater than 80" in both directions.

8" x 24" Wavy Tile

Actual tile size (not including any grout lines) is 7 7/8" x 24 1/8". The grout lines are 3/16" wide.

Horizontal Tile:

Max Product Width: 96 5/8"

Max Product Height: 104 7/8"

Vertical Tile:

Max Product Width: 104 7/8"

Max Product Height: 95 5/8"

Rule: Panels cannot be greater than 80" in both directions.

Shiplap Finish

Smooth panel with 1/4" wide recessed groove. The spacing between the grooves is 5".

Horizontal Tile:

Max Product Width: 96 1/8"

Max Product Height: 110"

Vertical Tile:

Max Product Width: 110"

Max Product Height: 96 1/8"

Rule: Panels cannot be greater than 80" in both directions.

Shower Bases - Standard

A typical Onyx Collection "Standard" shower consists of a shower base and 3 wall panels (2 for Neo-Angle & Dual Curb). A ceiling panel may also be added. All the standard size shower bases and curb styles are listed in this section, along with shower kits which include the wall panels and adhesive & color match silicone for installation.

Curb Style Options

Shape Options

Center Drains

Available in many sizes, center drain standard shower base options will fit almost any bathroom design. A standard size will work for most remodels and can be matched with our wall panels, shower accessories and shower seats.

Neo-Angle

A typical Onyx Collection "Standard" Neo-Angle Shower consists of a Neo-Angle Shower Base and two Wall Panels. A ceiling panel may also be added. We have two Standard Neo-Angle shower bases. They are both in the Mid Height Style. For other sizes or configurations, see the custom showers section of this catalog where you will discover endless possibilities.

Available Styles & Sizes

Standard Neo-Angle with Semi-Frameless Glass

Dual Curb

We have two Standard Dual Curb shower bases. They are both in the Mid Height style with a center drain. For other sizes or configurations, see the Custom Showers section of this catalog, where you will discover endless possibilities.

(Dual Curb with Frameless Door)

A typical Onyx Collection "Custom" Shower consists of a shower base and one panel for each wall. An endless variety of custom configurations are possible from traditional designs to elaborate walk-in designs. Any design can be enhanced with wider curbs for glass block walls, ceiling panels and even specially designed components for accessibility including ramped curbs, and low profile curbs

Curb Options

The Custom Low Profile Curb height may be as low as 1 ³/₈" and as tall as 2 ¹/₄" depending on shower size. This lower curb height is good for easy access, adding a ramp, or for recessing into the floor for a curbless entry. The low profile curb has a slope back into the shower area and the shower area has a 1/4" per foot slope towards the drain.

The Custom Mid Height Curb height is 2 ³/₄" tall. The Mid Height is designed with a more modern, straight line look and a lower, narrower curb for easier access and to give a little more room in the shower. It also has the benefit of working well with shower doors and curtains. The shower area has a 1/4" per foot slope towards the drain.

The Custom Full Height Curb height is 4" tall. This curb height works well with both shower doors and curtains. All curbs have a slope back into the shower area and the shower area has a 1/4" per foot slope towards the drain.

The add-on ramp can be used with any low profile shower base. It can be made to any length to accommodate your custom shower design and can be removed if not needed.

The integral ramp is a clean one piece design that makes easy access with wheel chairs. This ramp can be built into any of our shower bases.

Shape Options

With unlimited custom shapes available, all of our custom shower bases are cast in pieces to your specifications and then chemically bonded into a single unit for easy, worry-free installation.
